AI POSTERS

COMPETITION GUIDELINES

GSRH X IRTIQA

EVENT FOCUS	TIME LIMIT	TEAM LIMIT	FORMAT
AI Symposium 2026	**10 Mins Total**	**Up to 3 Members**	**Poster & Demo**

DATE & TIME

11 April 2026
11:00 AM – 1:30 PM

VENUE

Common Room,
Northwest School of Medicine

HARDWARE NOTICE

Internet access will be provided. All hardware (laptops, devices) needed for the demo must be arranged by the participants.

MANDATORY OUTPUT

Each entry MUST prepare exactly:

1 Printed Poster
1 Live Demonstration

No offensive or patient-identifiable data is allowed.

This competition allows participants to present their own AI-based projects OR showcase existing AI tools such as ChatGPT, Perplexity, Gemini, or similar platforms.

01. POSTER REQUIREMENTS

SL	CONTENT ELEMENT	DESCRIPTION
1.	**Intro & Features**	Name, background, creator(s), and what the tool can do (use-cases in medicine, research, learning, or clinical work).
2.	**Workflow**	Simple explanation of how the tool works. Flowcharts or diagrams are highly preferred.
3.	**Comparisons & Limits**	Strengths compared to alternatives, known issues, constraints, and relevant ethical concerns.
4.	**Future & Demo**	Future medical scope and a brief scenario showing how the tool helps solve a problem in the live demo.

02. PRESENTATION FORMAT

SL	SEGMENT PHASE	DESCRIPTION (10 MINUTES TOTAL)
1.	**Poster (4 Mins)**	Explain the tool/project, why it is useful, its workflow, alternatives, and limitations or challenges.
2.	**Live Demo (4 Mins)**	Show the tool in action via real-time prompt. If internet fails, teams must switch to screenshots or pre-recorded clips.
3.	**Q&A (2 Mins)**	Judges will ask short questions to test understanding and clarity of the project.

03. JUDGING CRITERIA

WT	CATEGORY	ASSESSMENT FOCUS
25%	**Concept & Demo**	Clear explanation of tool/purpose. Smooth, accurate live demonstration.
20%	**Poster Quality**	Visual clarity, logical structure, and content completeness.
15%	**Relevance**	Practical usefulness in medicine, research, or academics.
15%	**Q&A Performance**	Confidence, accuracy, and depth of responses.
