STRICT DEADLINE

Team Registration Closes:
April 1, 2026

Registration will close earlier if the 10-team capacity cap is reached.

This segment of the symposium is designed to challenge teams to defend or oppose critical motions regarding Artificial Intelligence in medicine, research, education, and society.

01. COMPETITION FORMAT

SL	RULE CATEGORY	REQUIREMENT
1.	**Team Structure**	Exactly 3 members per team. Must include a designated Team Leader and a unique Team Name.
2.	**Device Policy**	Use of smartphones, smartwatches, or tablets are not allowed during the debate.
3.	**Conduct & Integrity**	No personal attacks or offensive remarks. Deliberate fabrication of evidence or statistics is grounds for score deduction or disqualification.

02. SPEECH STRUCTURE & TIME LIMITS

SL	ROLE & DURATION	DESCRIPTION
1.	**Opening Speaker** 3 MINUTES	Defines key terms and introduces main arguments. All points must remain strictly relevant to the motion.
2.	**Second Speaker** 3 MINUTES	Expands arguments with supporting reasoning and specific examples.
3.	**Rebuttal Speaker** 2 MINUTES	Responds to the opposing team's case. New substantive arguments may NOT be introduced during this stage.
4.	**Reply / Closing** 2 MINUTES	Summarizes key points. No new arguments allowed; must focus on reinforcing the existing case.

03. EVALUATION CRITERIA

WT	JUDGING METRIC	ASSESSMENT FOCUS
40%	**Matter**	Quality and strength of arguments; logical reasoning; adherence to factual accuracy.
40%	**Manner**	Delivery, confidence, clarity of speech, and audience engagement.
20%	**Method**	Structure, organization, and proper use of rebuttal/reply phases (no new arguments).

04. THEMES & MOTIONS

The exact motion will be announced before the round begins. Potential areas include:

- AI in medical education and student learning.
- Ethical concerns in AI-assisted healthcare.
- AI replacing traditional medical workflows.
- AI in clinical decision making and academic writing.
